

Tenth Annual Conference – Oct. 8th, 2018

Presentation Title	تطبيقات تكنولوجيا المعلومات في الصناعات الزراعية IT Applications in Agriculture Industries
Speaker	Abdelaziz Elkilany, Founder of Araby, Land resources and Water Management Specialist
Abstract	<p>Agriculture is the world's largest industry, and it sustains the lives of seven billion plus and growing, human population. While industrialization and consequent urbanization did result in dwindling interest in pure farming, an agri-based industry focused on driving improvements in farming also took roots across the world.</p> <p>Our talk is about agriculture sectors and using IT in these sectors.</p>
