Abstract	Cyber Security plays an important role in the field of information technology. Securing the information has become one of the biggest challenges in the present time. Whenever we think about the cyber security the first thing that comes to our mind is 'cyber crimes' which are increasing immensely day by day. Various governments and companies are taking many measures in order to prevent these cyber crimes. Besides various measures cyber security is still a very big concern to many. Our talk will focus on cyber security versus cyber crime.
